

Atty. Dkt. No. 016887-1121

Applicant: Noriyuki UMEZAWA et al.

Title: METHOD AND APPARATUS FOR DISCRIMINATING
TONER BOTTLE TYPES, STIRRING TONER, AND
DETECTING THE AMOUNT OF REMAINING TONER

Appl. No.: 10/658,849

Filing Date: 09/10/2003

Examiner: Quana M. GRAINGER

Art Unit: 2852

Confirmation 4207
Number:

INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicants in order to comply with Applicants' duty of disclosure pursuant to 37 CFR §1.56.

A copy of each non-U.S. patent document and each non-patent document is being submitted to comply with the provisions of 37 CFR §1.97 and §1.98.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicants do not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The listed documents are being submitted in compliance with 37 CFR §1.97(b), before the mailing date of the first Office Action after the filing of a request for continued examination under §1.114.

RELEVANCE OF EACH DOCUMENT

Document A2 discloses methods and devices for a discriminating toner bottle, stirring toner, detecting toner residual amount, and the toner bottle applied to a device for a discriminating toner bottle and applied to a device for stirring the toner. It is a Japanese counterpart claiming priority to U.S. Patent No. 6,289,182, the subject patent of the present reissue application.

Documents A3 and A4 disclose a toner replenishment device.

Document A5 discloses a developer replenishing device.

Document A6 discloses a toner replenishing device for an image forming device and a toner cartridge used therein. It is a counterpart of U.S. Patent No. 6,256,469, which U.S. Patent was previously submitted to the U.S. Patent and Trademark Office and has been considered by the Examiner in this case.

Documents A1 and A3 belong to the same “patent family,” whereby the English language document may assist the PTO in understanding the content of the non-English language document.

Unless otherwise indicated, no English translation is readily available (not considering machine-generated translations that may be freely available online, to both the Applicant and the PTO) for each of the non-English language documents. However, a commercially available English language abstract is provided herewith, where indicated on the attached

Form PTO/SB/08. Inasmuch as Applicants have endeavored to provide at least one item that complies with the requirement for a "concise explanation of relevance" for each of the non-English language documents, each of these documents has been submitted in compliance with the PTO requirements and should be considered by the Examiner (37 CFR §1.97, §1.98 and MPEP §609).

Applicants respectfully request that each listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

Although Applicant believes that no fee is required for this Request, the Commissioner is hereby authorized to charge any additional fees which may be required for this Request to Deposit Account No. 19-0741.

Respectfully submitted,

By
